208 women chose life in 2021!

Executive Director Lyndi Zembrodt

The Care Net team would like to thank everyone for their prayer and financial support that increased the number of opportunities for men and women to experience Care Net's life affirming services in 2021. The expansion of Care Net's ultrasound services resulted in 208 decisions for life for the unborn. Clients who experienced Care Net's early intervention services chose life last year at the rate of 87%.

In 2021, Care Net experienced record numbers of calls from women seeking abortion services. The increase in calls from abortion-minded women is largely due to our marketing strategy of online advertising. Additionally, our skilled team who answers our 24-hour helpline booked record numbers of appointments for the relevant service of ultrasound imaging for pregnancy confirmation.

Our ministry continues as we support the clients in their life choice with more than 20 educational programs. Our mentors and staff provided 2,070 individual classes online and in person last year.

Our goals to save and change more lives in 2022 include:

- Offering medical services at our new medical center in Williamstown, Ky.

- Expansion of medical appointments at our Cold Spring and Florence medical centers
- Training additional medical personnel to provide ultrasound services to sustain same day ultrasound services at three locations
- Adding screening testing and treatment of sexually transmitted infections and diseases
- Visioning session to increase our capacity to save and change precious lives

Please know that Care Net's staff and board of directors are passionate about meeting women where they are in a time of crisis and helping give them a solid rock on which to stand, which is Christ our Lord.

Save the dates for these major spring events!

Mark your calendar for the 2022 Annual Banquet on May 5. We are excited to return this major event to its traditional season.

And watch your mail for news of our Spring Appeal throughout March.

1,251 babies (and counting)

have been given life by Care Net clients since Nicholas's Ultrasound Room opened in 2006. This window on the womb powerfully confirms the beginning of human life and is a vital tool for presenting life options to our clients.

Volunteers, staff, grantor and even Google join forces for client couple

Eduardo and Daniela came to the McKinley Family Center in Florence in April 2021 for pregnancy confirmation. That visit began a blessed collaboration by staff, volunteers, a grantor and Google to give these young parents a strong start.

Daniela and Eduardo

Both wanted to take Care Net's classes and signed up for Earn While You Learn. Led by a Mentor Mom, the 20 EWYL lessons focus on prenatal and newborn care, nutrition, fetal development, safety and more.

But while Eduardo is bilingual, Daniela currently speaks only Spanish. As He does so often, God had gone ahead of Care Net to meet this need; a grant from Hopeful Lutheran Church in Florence had already

provided funds specifically for Spanish versions of some classes. Volunteer mentor Kathy Mullen is able to converse in Spanish and became their Mentor Mom.

Eduardo took the Fatherhood program with volunteer Carson Latham and wanted hands-on lessons. Using dolls, Carson taught him how to hold a baby, change a diaper, secure a baby in a car seat and other confidence-building skills.

"I can't say enough how much of a joy it is to see new dads reach out to Care Net to help prepare them for fatherhood," Carson said.

Daniela also signed up to take Care Net's Breastfeeding class, but while the video is available in Spanish, the printed manual is not. Care Net staffer Brittany Baker first entered the entire text of the manual into Google Translate and emailed the result to

Using a doll, Eduardo practices diapering

volunteer Helen Curless, a retired lactation consultant. Helen forwarded the text to her niece, who has a Master's degree in English-to-Spanish translation. She graciously made necessary corrections and emailed it back. Helen and fellow mentor Loretta Hall then led Daniela through the program via virtual meetings. Eduardo pronounced the translation "perfect."

"I believe all of this was the work of the Lord," said Florence Center Director Sandy Williams. "Everything fell into place in a matter of two weeks. I told [the couple] how much their feedback meant to us, because this was the first Spanish-language Breastfeeding class we had done."

Help us reach college students

Do you have a passion for reaching local college students for life? We need marketing funds to purchase digital ads in the weekly emails they receive from their schools, Google ads and printed materials that promote our client website and services. Go to carenetnky.org/college-outreach to contribute to this specialized marketing effort.

Are you a college student who would like to be part of this outreach? Go to carenetnky.org/volunteer and enter "college outreach" in your message.

Paid Google ads such as this one allow us to work around Google's limiting algorithms and appear more often on the first page of searches.

Diocese of Covington Pro-Life Office honors Care Net

The Pro-Life Office of the Diocese of Covington honored Care Net with one of its 2022 Faces of Pro-Life awards at its biennial Life's a Ball celebration February 12.

"This event celebrates the many faces of pro-life, honoring the people who have made an impact within the community in preserving the sanctity of life," reported The Messenger, the diocese's publication.

Also honored this year were Rose Garden Home Mission and New Hope Pregnancy Center.

Dedications *To dedicate a gift in someone's honor or memory, call 859-431-9178 or note your intent on your check or in the Note section of the online form.*
